N.B.—The reason of so few discharges of bills of sale, &c., being registered is mainly owing to the difficulty of proving the certificate of satisfaction as required by the Act (No. 8 of 5th Vic.), viz., the acknowledgment by the mortgagee of his signature to the certificate of satisfaction or proof of execution by said mortgagee by one of two witnesses upon affidavit before the Registrar-General or his deputy. For this reason the greater portion are allowed to lapse.

* Loan raised by Colonisation Commissioners. † Aid from Imperial Government. ‡ Aid to Revenue by issue of Bond and Treasury Bills.
§ Immigration ceased in these years.

NOTE.—Prior to 1851, all remittances to the Land and Emigration Commissioners were carried to account by the Colonial Treasurer as sums *expended* on immigration, and the receipts in England by the Land and Emigration Commissioners were never included in the accounts of the Colony—an adjustment of accounts was, however, made in the year 1853.

* Where asterisks occur the information has not been furnished.

[5] Including beans and peas, except in the case of New South Wales.

[6] Including land under permanent artificial grass in all the colonies except Western Australia (where green forage is included with hay) and New Zealand. *See* footnotes 2 and 5 to Table X., *post*.

[7] Including land in fallow in most of the colonies. *See* footnote 3 to Table X., *post*.

[8] The figures for South Australia from 1876 onwards include the balance due for lands sold on credit. The figures relating to the years prior to 1876 do not express the full amount for which such lands were parted with.

[9] In the New Zealand returns the land under permanent artificial grass, which in other colonies is classed with green forage, is not considered as under cultivation. *See* footnote 5 to Table X., *post*.

[1] The amounts in this column are made up of Customs duties, exclusive of duties on the export of gold, drawbacks, &c.; also of excise duties, including licences imposed for revenue purposes; duties on bank notes, stamps, other than those for fees of office; legacy, succession, and probate duties; property and income taxes; and any other impost, payable to the General Government, levied distinctly as a tax; but excluding fees, licences, and charges for special services rendered.

[2] In calculating the amounts for Victoria, the mean population during the year 1881-2 (880,280), and for Queensland the population on the 1st January, 1882 (226,968), has been taken. For the other colonies the figures of mean population shown in the last column Table I. have been used.

[3] According to a return made up in the Treasury, but not audited up to the time of this going to press, the figures for Victoria during the year ended June 30th, 1883, were as follows:—Revenue raised by taxation, £2,334,255; revenue not so raised, £3,267,812; total revenue, £5,602,067; estimated total expenditure, £5,669,878. The estimated mean population of the same period was 904,646; therefore the revenue per head was £6 3s. 10d.; the expenditure per head was £6 5s. 4d.; and the taxation per head was £2 11s. 7d.

[4] The figures for Tasmania are subject to future revision.

[5] The proportion of the revenue of New Zealand derived from taxation has been only estimated.

[1] In calculating these results the populations on the 31st December shown in the fifth column of Table I. have been used.

[2] In calculating these results the figures of public revenue given in Table IV. have been used.

[3] On the 30th June, 1883, the Public Debt of Victoria was £26,103,202. The estimated population at that date was 915,948, and the revenue of the financial year ended with that date was £5,602,067. The amount of indebtedness per head was thus £28 10s., and the debt was equivalent to 4·66 years' revenue.

[4] The Accrued Sinking Fund of New Zealand amounted on the 31st December to £2,462,496. The net liability is therefore £27,773,215.

[1] The figures for Victoria, Queensland, and New Zealand do not include land of which the purchase was not completed. Such land amounted, at the end of 1882, to 7,396,343 acres in Victoria, and at the end of 1879 to 3,720,000 acres in Queensland, and at the end of 1881 to 389,237 acres in New Zealand. The figures for New South Wales and South Australia do include such land, which in the former colony amounted at the end of 1881 to 13,590,840 acres, exclusive of over 4,400,000 acres, of which the purchase had been cancelled. Portion of this land might revert to the Crown in consequence of non-fulfilment of conditions, &c.

[2] To compute the amounts in these columns the money realised has been divided by the sum of the acres granted and sold. The amounts, therefore, express the average price realised for all the land parted with, including not only that for which money was paid, but that which was granted without payment.

[3] In Victoria, Queensland, and New Zealand the land in process of alienation is included under this head. See note 1.

[4] Of this extent about 16,000,000 acres belong to the Maoris, or to Europeans who have purchased from them.

TABLE X.—AGRICULTURAL STATISTICS, 1881-2.—LAND IN CULTIVATION.

*** The Agricultural Statistics in most of the colonies are collected in the months of February and March of each year. The present returns are for those months of 1883. In calculating the rates of tillage per head, the population at the 31st of December, 1882, has been taken.

[1] Including beans and peas, except in the case of New South Wales.

[2] In addition to crops sown for the purpose of being cut green for cattle, this column contains the following areas laid down in permanent artificial grass in the colonies named :—Victoria, 284,645 acres; Queensland, 7,346 acres; South Australia, 12,419 acres; Tasmania, 148,291 acres.

[3] In the returns of some of the colonies this column embraces land in fallow as well as land under crop. The following are the areas in fallow included in the returns of such colonies :—Victoria, 159,302 acres; Queensland, 9,062 acres; South Australia, 421,240 acres; Tasmania, 22,709 acres; New Zealand, 195,398 acres.

[4] Including 433 acres under turnips, carrots, parsnips, cabbage, and beet, which produced 3,281 tons; 1,087 acres under mangel-wurzel, which produced 16,656 tons; 1,341 acres under onions, which produced 8,280 tons; 1,313 acres under tobacco, which produced 5,673cwts.; 283 acres under chicory, which produced 1,209 tons; 1,034 acres under hops, which produced 9,243cwts.; 2,290 acres under grass seeds, which produced 28,740 bushels, &c.

[5] In the figures for New Zealand the land under permanent artificial grass, amounting to 4,322,562 acres—of which 2,018,964 acres had been, and 2,303,598 acres had not been, previously ploughed—is not entered as green forage, nor, with the exception of 61,054 acres, embracing some of the ploughed and some of the unploughed portion, the grass on which was mowed for hay, is it included in the total area under tillage, as in the other colonies. Were the whole so placed, it would bring the land under tillage up to 5,651,255 acres, or to 10·91 acres per head of the population.

[2] The produce of crops given for Western Australia is the result of an estimate made by the Government of that colony, which may perhaps be wide of the truth.

[1] It is believed by the Registrar-General of Fiji that the births, deaths, and marriages here given are less than those which actually occurred.

[2] The total area alienated at the end of 1882 was 280,735 acres. The amount realised by the State was only £20,157, which, however, represents the price of but a small proportion of the acreage alienated. The majority of the grants issued were for lands acquired by whites and others previously to annexation, and these received their titles at the nominal price of one shilling.
